Bat Yam, Israel

Profile

A multidisciplinary product designer specializing in UX/UI and Industrial Design. I'm experienced at working in a team of developers and product managers and lead complex projects from start to finish. I always take engineering and development into consideration to create usable and delightful products.

Experience

2015 - 2020

Industrial Designer at Intovision. My responsibilities included:

- Research (market research, competitive analysis, user research)
- Concept development (sketching, mock-ups, feedback sessions)
- Prototyping (3D modeling and printing, models assembly)
- User Testing
- Guiding my clients through all development steps

Education

2019

Completed a UX design program at CREATE school

2014

Graduated with a Bachelors degree (B.Des Industrial Design)
Shenkar School of Engineering & Design

Military Service

2005 - 2008

Airfield rescue crew and aircraft mechanic in Israeli Air Force
